The city is now in the greatest state of excitement. Knots of men are congrega-ted in every direction talking of the trag-edy. It is reported that about forty of the Chinese belonging to the other comthe Chinese belonging to the other com-pany left town during the time of the dis-turbance last evening. Only one of the parties who shot at the officers and citizens has been identified among the dead. The other guilty once have escaped, while

tWhich Will You Support. AGRMENT OF THE NATIONAL FINANCES
- WHAT DEMOCRATIC MISMANAGEMENT IS COSTING NEW YORK.

The usual monthly statement of the national debt is published this morning. We point with proud satisfaction, to the facts therein precented, and ask every Democrat to study the record of the Re-Democrat to study the record of the Republican administration. When General Grant went into office the national debt, less cash on hand, was: \$2,456,467,861. Twenty months have elepsed, and now the people's burden—the legacy of a Democratic war—is \$2,251,713,448. It thus appears that Seneral Grant's administration has paid off and forever obliterated no less than \$204,754 413! Have we not a right, not only as Republicans, but as American ottizens, to be proud of such a record? In four months less than half of his first term, our straightforward chief has wiped

revenue list a great many articles most

from your burden so fast that your tengue is unable to count them as they fall?

Suppose—if there can be a supposition in so plain a case—that General Grant is called upon for another term. His policy will doubtlessly continue, for he as not a man to be blown about by every fickle breeze He will "fight it out on this line" of paying off the debt as fast as it can be done with due regard to the best interested of the people. He has thus far paid nearly \$10,000,000 per month Two terms would be unerty any months, and this would injure the reduction of the debt by the enormous sum of \$900,000,000? That is to say, and there is no moral doubt of its truth, that if General Grant fills out his two full terms as President, he will have paid nearly \$1,000,000,000 that were, have paid nearly \$1,000,000,000 that were,

when he came into office, drawing nearly \$50,000,000 every year in interest from the pockets of 2the people. At the rate the work has been going on, the whole debt might be paid in eighteen years from this day. So maich for Republican financial government.

What have the other party, to show for the multiple 2 The only place of importance. nemselves? The only place of important in which the Democracy have had everything their own way since Grant's mang-uration is the great city of New York They have all the officer, all the courts the State Legislature, the Governor, i tast, everything. Nor a solitary Republ tast, everything. Nor a solitary Republican has had power to range more than his protest against their doings. What has the Demogratic party done? It has increased the city debt, by three times. It has raised the burden of the taxpayers from less than \$30,000,000 to more than \$100,000,000?

Dorth of General Anderson Cable dispatches samounce the death of langual Robert Anderson, of Fore Sumber Nice, France, on inst Thursday He had resided abroad for a evening. He had resided abroad for a considerable period, hoping to arrest the progress of the disease which haditaken root a his system, and his removal to Nice some three weeks ago was determined upon in the hope of receiving benealt from the change. General Anderson was a soldier from his birth, it might be said. He was born at the "Soldiers' Retreat." near Louisville, Kantneky, in 1805. His father was an American colonal in the was of the Revolution. He graduated at West Point in 1895, took part in the "Black Point in 1835, took part in the "Black Hawk war," and was subsequently promoted to a first lieutenantoy. Afterward he was brevetted a captain for "gallantry and successful conduct in the war against and successful conduct in the war against the 'Florida Indiana." He was with Scottin Mexico in 1847, participated in the reduction of Vera Crux, and was soverely wounded at Motino del Rey. For "gallant and meritorious conduct" in the latter he was brevetted Major. At the close of the Mexican war he was assigned to various neats of home date. South Franklin St.

to various posts of home duty, seauming the command at Charleston harbor November 20, 1860. It was here that he took part in the first scones in the drama of the rebellion, being closely besieged in Fact Sampter by the Confederate forces for a period of three and a half months. Upon the final surrender of his little Too of seventy men. General Anders went to New York where he met with enthusastic reception. Afterward he made an effort to perform active service in the Department of the Comberland, but failing health compelled him to seek re-lief from active military service. He has translated and adapted from the French many valuable military works.

Which entirely prevents the ingress of air into oil wells while the tubing is No. 22 Spring St., being drawn.

It is a well known fact to oil well operators that upon wells where gus pumps are used, it is necessary to preserve as nearly a perfect vacuum as possible, and that no air should be let into the well at any time when it can possibly he avoided, consequently whenever the tubing is drawn from a well it is the cause of great in pury to it, as the studing box being their necessarily opened, the studing box being their necessarily opened, the studing box being their necessarily opened, the studing box series, and consequently easing the oil and gas to rush back to a great distance. It almost always takes several days after pump ing resumed for a well to be brought back to its former condition, and oftentimes it takes several weeks, and quite frequently wells have been almost completely mined by the air being thus lot in white drawn is tubing.

The Back Suction Frevet tive is attached to the studing box, and works in such a way that it completely shuts up the space between the shuffing box and tubings of effectually that not a ps ticle of air can get through at any time while the tubing is being drawn and replaced.
